

# The Future Is **Bio-Carbon**

Accelerating the Transition from Fossil to Bio-Carbon  
through a **Digitally Enabled Bio-Carbon Supply Chain**

**BiofuelCircle** is reimagining how industries, rural enterprises, and farmers connect. We are building India's largest digital Bio-Carbon supply chain ecosystem that makes sustainable fuel accessible, reliable, and profitable for everyone involved.

Our vision is simple yet transformative: replace fossil energy with a renewable bio-carbon network that uplifts communities and restores our planet.

## Building a Connected Bio-Carbon Economy

A Digital Platform Powering a Circular Supply Chain

BiofuelCircle bridges the gap between rural producers and industrial consumers through a transparent, end-to-end digital platform.

**Biomass Bank**  
Rural Circular Economy

**Envira Franchise**  
Bio-Carbon Processors

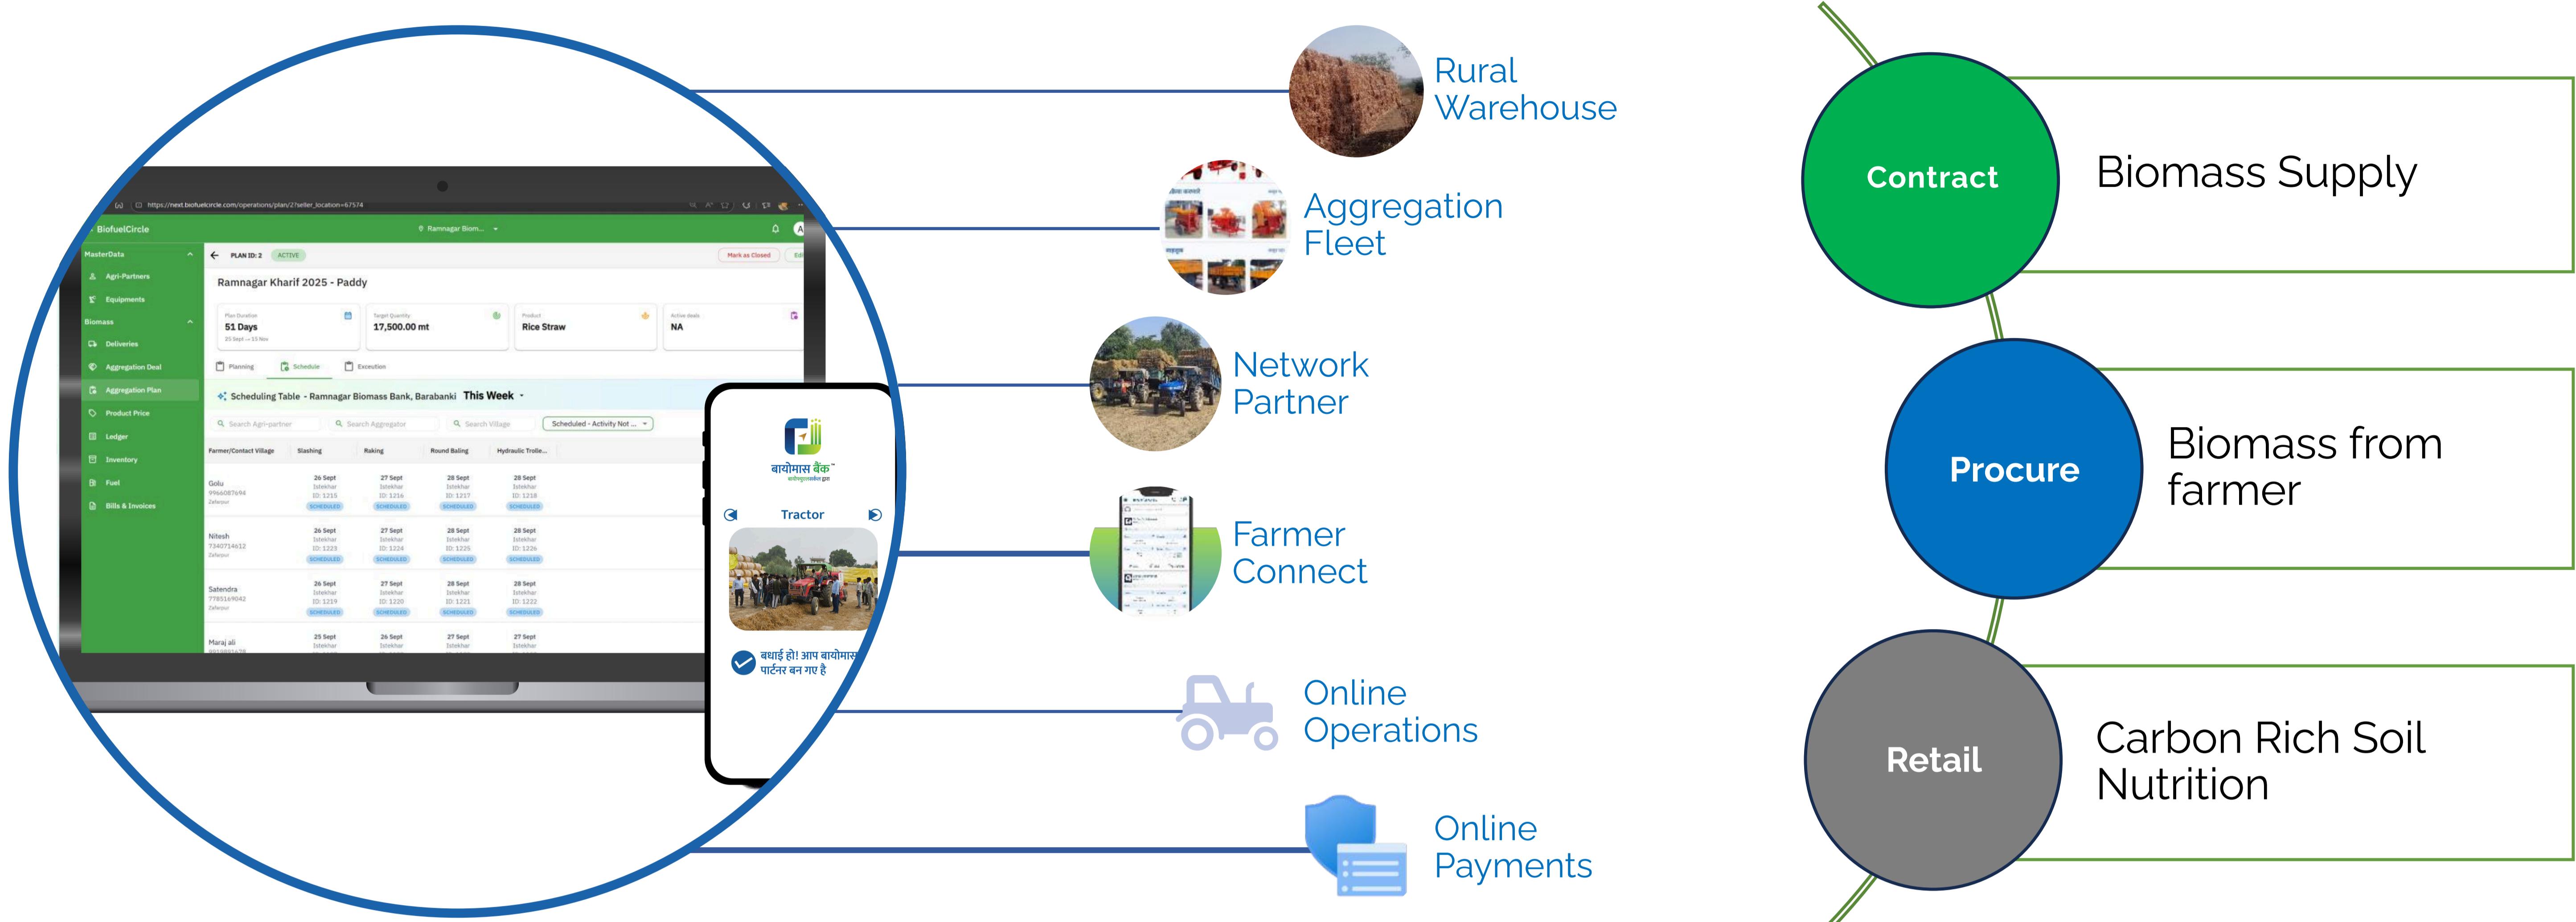

**Bio Carbon**  
Marketplace

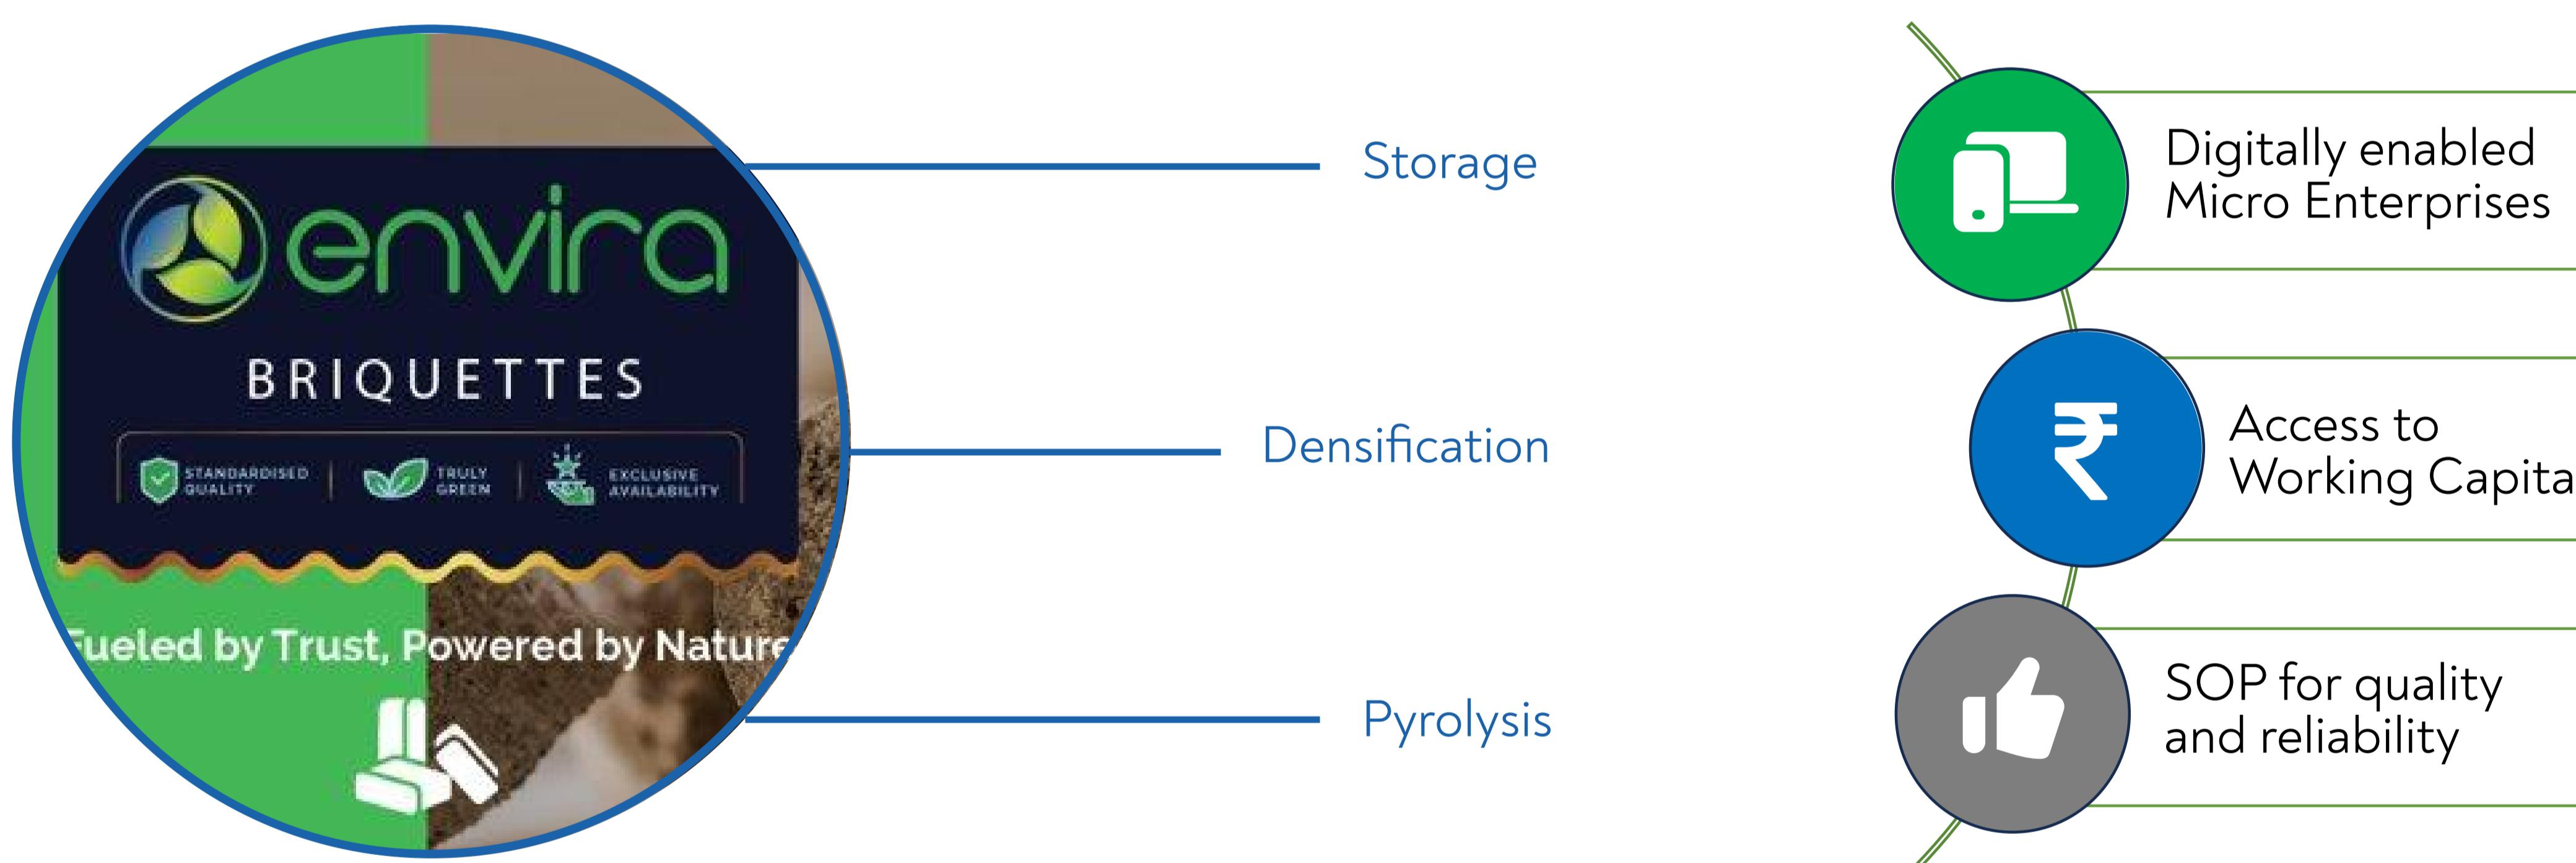

## Biomass Bank

A digitally enabled rural network that aggregates, processes, and supplies biomass - empowering farmers and creating rural employment opportunities.

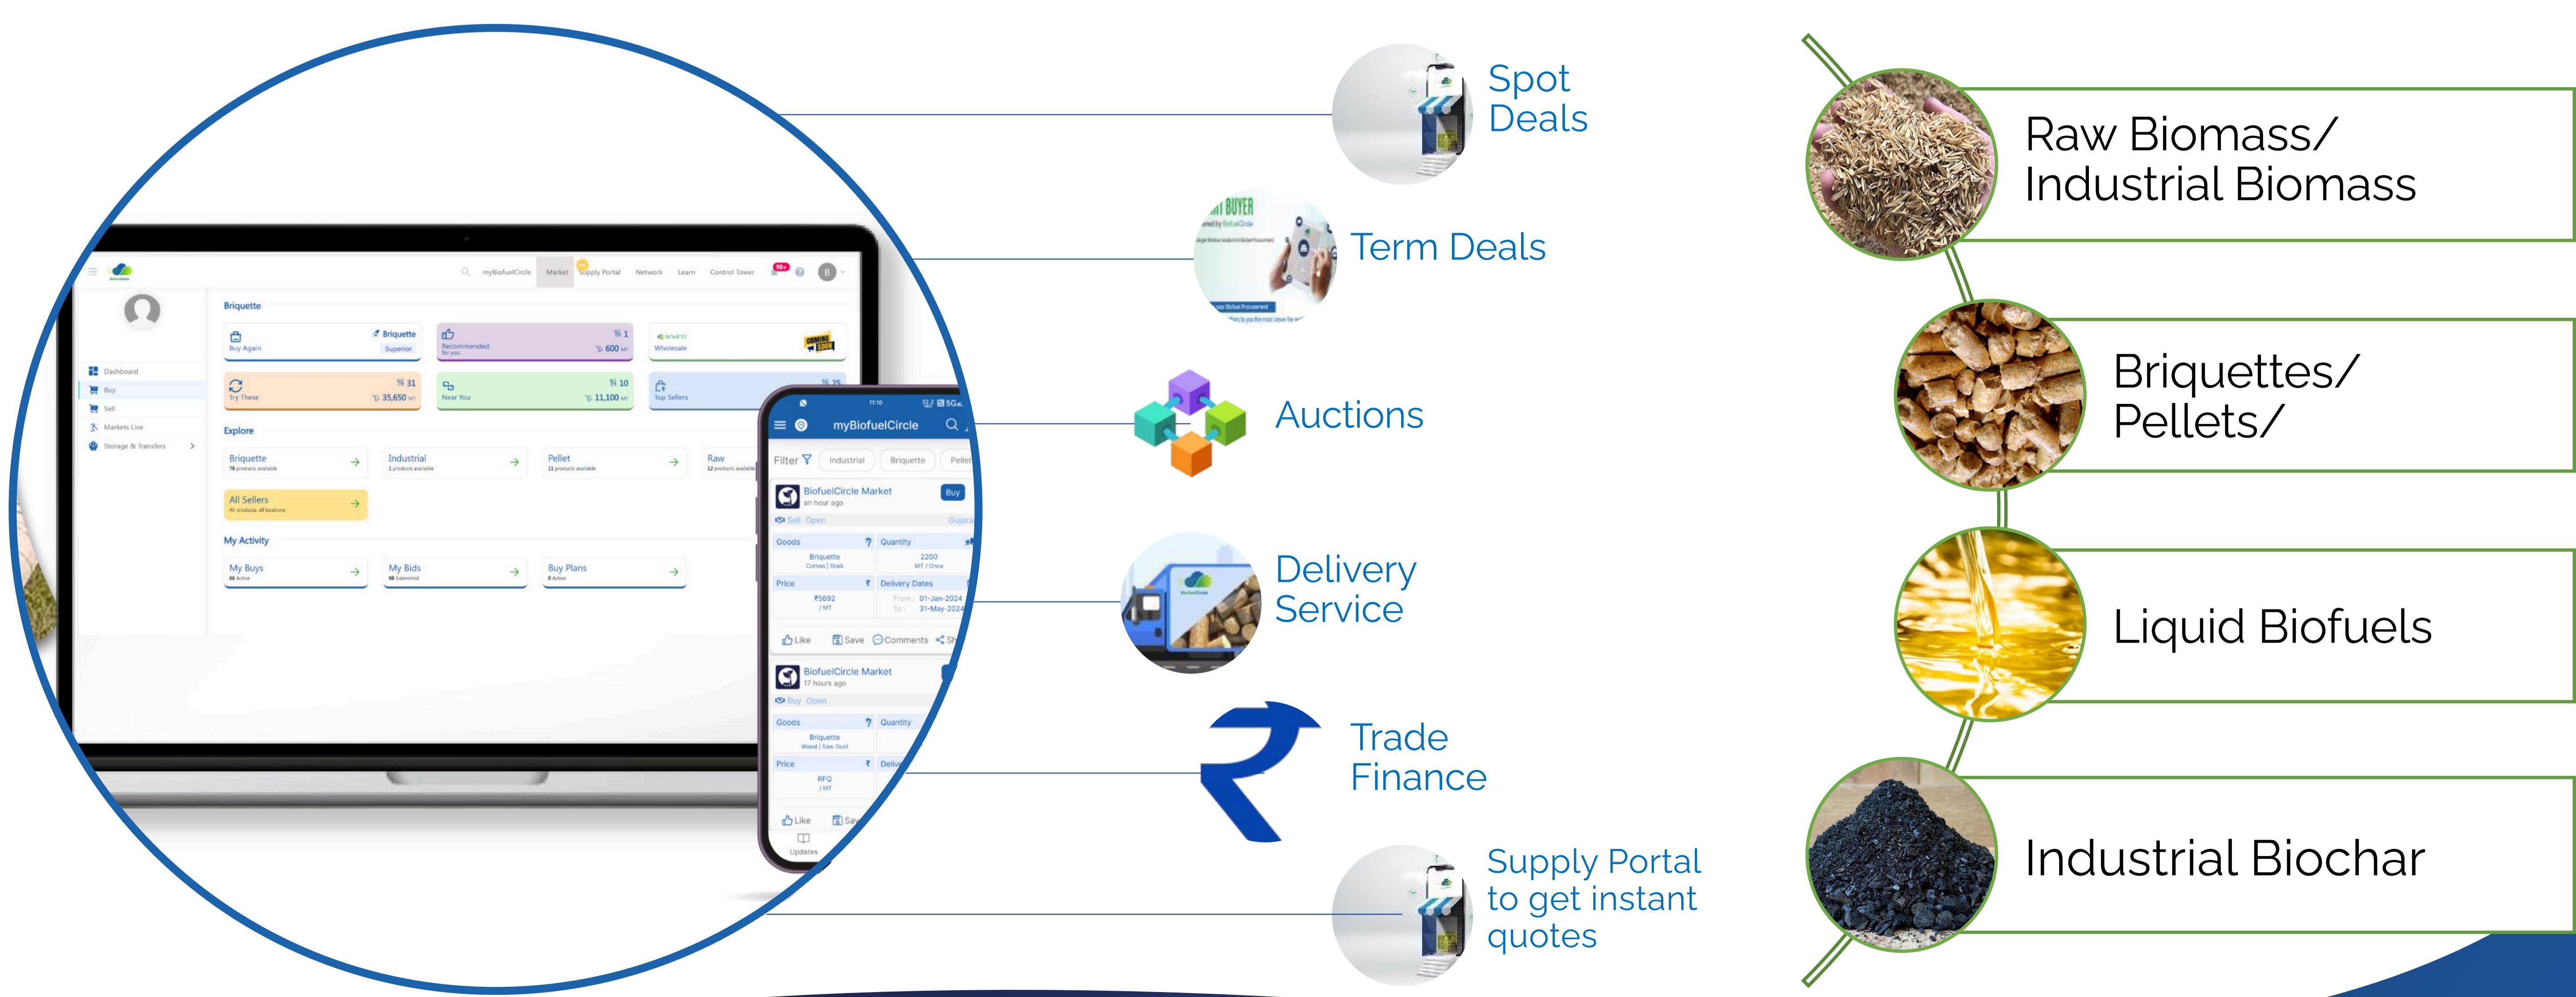

## Distributed Manufacturing (Envira Franchise)

Localized processing hubs turn agricultural residues into valuable fuels.

## Bio-Carbon E-Marketplace

A digital hub where industries can buy green fuels and suppliers can sell directly. From bidding to delivery, every step is verified, traceable, and powered by real-time data.

# Decarbonisation and Circular economy through Biomass

## Soil Nutrition and Re-Carbonization

Rural Circular Economy (Biomass-FOM-Biochar)

## Energy Crop Plantation Services

Augmenting feedstock supplies through use of degraded land

## Bio-Carbon Industrial & Agricultural

For Biocarbon Sequestration & Fossil Carbon substitution

## Scale | Trust | Impact

**1.5 Lakh**  
Farmers

**2,000**  
Rural Partners

**1,200+**  
Biofuel Suppliers

**300+**  
Industrial Buyers

**10**  
Indian States

**125**  
Biomass Banks by 2025-26

**800,000 MT**  
Annual Supply Volume Run-rate

### Streamlined Procurement

Process industries can focus on core operations as procurement & supply management can be digitally handled at fingertips, with assurance of supplies.

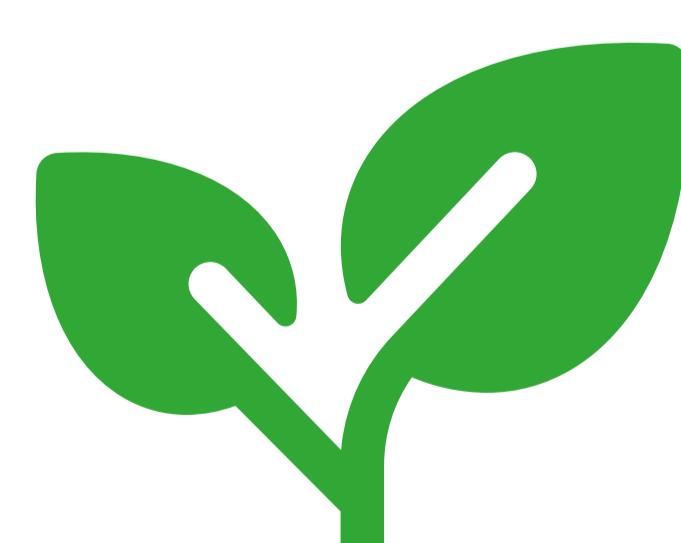

### Informed Decision-Making

Access to real-time market prices empowers purchase managers to make informed purchasing choices.

### Reliable & Scheduled Supplies

BiofuelCircle ensures uninterrupted & systematically scheduled supply chains for smooth operations.

### Sustainable Practices

By offering green fuel options, BiofuelCircle helps process industries reduce their environmental footprint and offers traceability.
